

Get a big **STEP** up
for your grad
students success

Tell them about
**TEP 5500: Research Methods
& Project Execution**

LEARN MORE

Completing a grad
degree and thesis is
complex, challenging,
& can be chaotic

They need a plan
TEP5500 can help

*"This course sharpens
students' thinking
about their project and
improves graduate
student efficiency by
giving them a
designated space to
plan and refine their
project."*

-- ISTEP Professor Lydia Wilkinson
TEP5500 Course Instructor

The learning experience

With facilitated, activity-
based workshops,
TEP5500 will give
students a space to
thrive, & provide a
foundation for more
workshops and courses

Learning outcomes

The best prepared grad students possible

With ISTEP's TEP5500, students can have *greater clarity* about their research, *more confidence* to share this research, the *tools to communicate* about this research, and the *resources* to continue to develop their *scientific writing and research skills* throughout their graduate degree. The course was developed with consultation from students, faculty and alumni to identify current gaps in graduate student training.

The result

Students who are better equipped to balance & optimize their experience, productivity & achievement
